

calico::sensors::Sensor

```
classDiagram
    class calico_sensors_Camera["calico::sensors::Camera"]
    class calico_sensors_Sensor["calico::sensors::Sensor"]
    calico_sensors_Camera --|> calico_sensors_Sensor
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'calico::sensors::Camera'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'calico::sensors::Sensor'. This indicates that 'Camera' inherits from 'Sensor'.

calico::sensors::Camera
